

# Transportation and Climate Initiative

- 11 northeast and mid-Atlantic states and the District of Columbia.
- TCI launched in 2010.
- Working together to reduce energy use and GHG emissions from transportation, the largest source of emissions in the region.

Sources of Carbon Emissions in TCI Region

# TCI Regional Electric Vehicle Support

# TCI States Have Set Economy-Wide GHG Reduction Goals

# Analysis Found Opportunity & Benefits

Findings included:

- States in the region not on track to meet long-term emissions goals.
- Regional GHG reductions on the order of 29 to 40 percent from 2011 levels by 2030 may be feasible.
- Estimated significant net economic, health, employment and environmental benefits.
  - Businesses save \$1.6 to \$3.2 billion by 2030
  - Consumers save \$284 million to \$1.2 billion by 2030

## November 2017 Announcement

***“Our states are now initiating a public conversation about these opportunities and challenges, the benefits we would all like to see in the transportation system of the future, and the policies that will enable us to realize this future together.”*** – Connecticut, Delaware, D.C., Maryland, Massachusetts, New York, Rhode Island, and Vermont

# Goals of Regional Listening Sessions

- Understand our region’s transportation needs and opportunities, and what would make it easy to adopt low carbon options;
- Outline goals for a future, low carbon-transportation system for our region, and
- Discuss how different types of state/regional policies and actions can help meet those goals.
- Sessions around the region:
  - April 9, in Albany, NY
  - May 21, in Hartford, CT
  - June 6, in Wilmington, DE
  - Others TBD through end of July
